Reliable **sustainable** solutions with enviroBATT

enviroBATT starting, lighting and ignition (SLI) batteries provide long-lasting power and reliability, thus ensuring quick starts and consistent performance whatever the weather. enviroBATT SLI batteries are perfect for an extensive range of vehicles, from compact cars to 4x4 models. enviroBATT commercial batteries are ideal for heavy-duty applications, providing the robust energy solution needed.

B Long Lasting Performance and Durability

A reinforced solid frame offers protection against short circuits, plus improved performance and durability.

B Mechanical Strength

enviroBATT batteries are built to last, with special alloy and grid design providing extra strength.

B Wide Product Range

Compatible with a variety of models and makes, enviroBATT batteries are versatile and adaptable.

B After-Sales Support

Complete peace of mind with our warranty and customer support options.

B Registered Producer

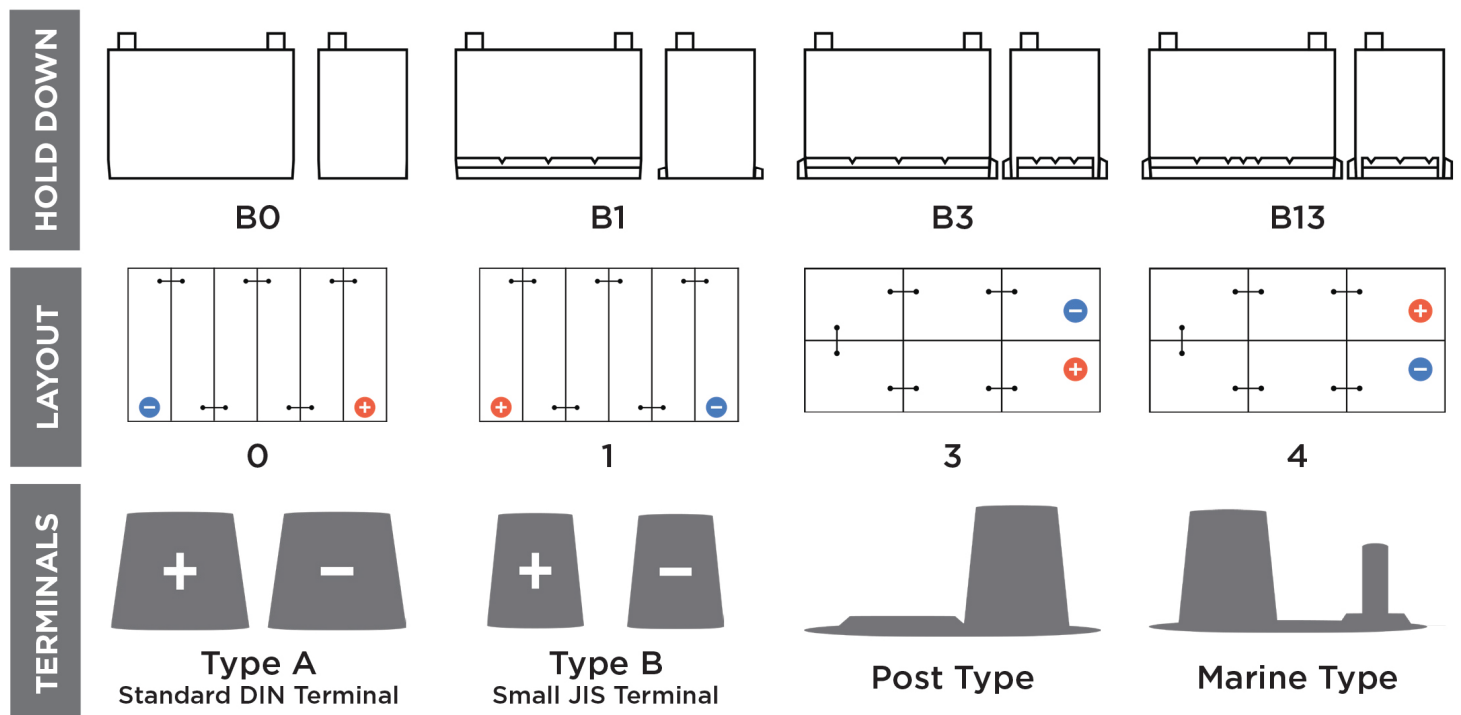

enviroBATT is a registered producer in England, Scotland, Wales and Northern Ireland in accordance with the Waste Batteries and Accumulators Regulations 2009.

B Vibration Resistance

Designed to resist vibration, enviroBATT batteries are perfect for rugged terrains and heavy-duty applications.

B Eco-Friendly Partners

Committed to **sustainability**, enviroBATT offers a full recycling solution with our partners Envirowales who are part of the IMI Group of companies. Envirowales is an industry leading lead acid battery recycling business, located in South Wales, where customer end of life batteries can be returned to be recycled into products for use across the lead industry.
